TAMIL ARASAN

Information Technology Professional & Software Developer

Chennai, Tamil Nadu | +91 6369199759 | tamil636919@gmail.com

LinkedIn: linkedin.com/in/tamil-arasan-9b2418258

PROFESSIONAL SUMMARY

Results-driven Information Technology professional with hands-on industrial experience driving digital transformation and networking initiatives. Experienced in merging robust IT networking with full-stack software engineering to optimize core business operations. Adept at accelerating software development life cycles and enhancing code quality by integrating advanced AI developer tools into daily workflows. Exposure to full-stack application development, enterprise system delivery, custom AI agent architecture, and cross-functional workflow automation.

CORE TECHNICAL SKILLS

Full-Stack Development • Digital Transformation • IT Networking • Workflow Automation

Data Structures & Algorithms (DSA) • HTML & CSS • JavaScript & TypeScript • Python • Java

DEVELOPMENT & AI TOOLS

Cursor • GitHub Copilot • Codex • Claude • Antigravity • Ollama Framework

INDUSTRIAL EXPERIENCE

INDOTECH TRANSFORMER LIMITED Chennai, Tamil Nadu

Software Developer (Digital Transformation & Networking) *[Start Month, Year] – Present*

- Engineered and deployed impactful enterprise systems to streamline organizational efficiency and system reliability
- Accelerated software development life cycles and enhanced code quality by integrating AI developer tools (Cursor, Codex, Claude) into daily workflows
- Supported and optimized internal IT networking and digital transformation initiatives
- Handled full-stack development tasks utilizing HTML, CSS, JavaScript, TypeScript, Python, and Java

Key Contribution:

- Successfully developed and deployed three critical operational systems: a CAPEX Tracker, a Project Management System, and an Engine Dispatch Management System.

ACADEMIC, INDUSTRIAL & PERSONAL PROJECTS

Custom AI Agent System

- Developed a localized AI agent utilizing the Ollama framework, configuring specific API parameters to optimize model performance and inference speed
- Engineered advanced tool-calling capabilities—including automated time calculations, cloud service integrations, and document parsing mechanisms for dynamic data retrieval
- Implemented memory optimization techniques to efficiently manage context windows and system resources during complex, multi-turn interactions

Project Management System

- Built a comprehensive system to track, manage, and optimize ongoing internal projects and resources

Engine Dispatch Management System

- Developed an automated dispatch workflow system to monitor and streamline the engine deployment and logistics process

CAPEX Tracker

- Created a financial tracking tool to monitor capital expenditures and improve budget accuracy and reporting

EDUCATION

B.Tech. Information Technology

Kings Engineering College (Autonomous, Affiliated to Anna University), Chennai CGPA: 8.5/10

LANGUAGES

Tamil (Native) • English (Professional)
